

Children's Parties

Imagine throwing a birthday party for your child with **live music** and a **sing-a-long** for all the kids to enjoy. Let me entertain the children so you can spend a little time catching your breath and catching up with the other parents. After the sing-a-long, I can continue playing a repertoire of children's favorite songs, interspersed with songs for the adults to enjoy, as well. And, of course, I will lead everyone in singing "**Happy Birthday**".

Would you like to **surprise** your little girl with a special party? Imagine her delight as you lead her into a room filled with her friends, cousins, Aunties and Uncles, and over in a corner I sit dressed as *Her Majesty's Fairy Princess*, wearing a long gown and a sparkling crown, ready to read a **fairy tale** to all the children. After we're through with our storytelling fantasy, they're off to a little tea party you've set up with cookies and lemonade, while I play and sing *Beauty and the Beast* in the background. (And don't worry, I'll be sure to play some music the adults will enjoy, also.) Next, the birthday cake arrives, candles glowing; everyone gathers 'round, and I lead the group in singing "*Happy Birthday*" to your little girl. Each child leaves with a little party favor from me, and the memory of a wonderful afternoon. **Happy Birthday**, indeed!

At Christmas-time, it's *Mrs. Santa* who comes visiting. Kids always want to know if I'm helping Santa Claus get all the presents ready. Sometimes they even give me a secret note with a Christmas wish. I can play background music while everyone mingles and opens gifts, and then end the evening with all the kids piled together on the piano bench singing Christmas carols. The adults will have a great time helping out with the sing-a-long, and everyone leaves the party with a smile on their face and a song in their heart.

Call or email me and let's plan you child's special day!
