

## Corporate Events

These range from parties to entertain special clients, awards banquets, cocktail parties at business conferences, background music in your trade show booth, and parties for you and your staff. You know the impression you make in the first five seconds can have a lasting effect. You want to project an image of **success**. What better way to create a *good impression* and an air of excitement than providing **live music** for your guests to enjoy? Live music is an instant **ice-breaker**.

I can perform solo on the piano, with vocals if you choose, or I can bring along my Jazz Trio, or my band, *Joint Venture*. We can provide either forefront or background music. I understand the dynamics of the corporate world. **You're the boss**. You call the shots. I can move in the musical direction that best suits your needs.

Call or email me and we can look over my extensive song list together. I can plan your musical program quickly and easily, and help ensure your event accomplishes *everything you want*.
