

"Sleigh bells ring, are you listening?"

It's not too early to start planning your holiday party.

What kind of party do you want this year?

I can play Christmas carols fused with your everyday favorites for a **nice balance**. My extensive song list allows you to choose those songs that make you and your guests happy throughout the year, interspersed with Christmas staples to set a festive holiday mood. Background music or a more animated program -- whichever suits the tone you want to set.

My famous holiday **Sing-a-long** really gets your guests involved. Hand out my booklets with all the words and get ready to listen to the **joy!**

As soon as I get all those cookies baked fresh from my kitchen at the North Pole, I can come visit as **Mrs. Santa Claus!** This is such great fun as I dress in my Mrs. Santa costume and entertain both children and adults. I usually begin with background piano and vocals, and then go into a **Sing-a-long**.

On the **softer side**, if you prefer the **classical touch**, I can play some of your most beloved Bach, Beethoven, Chopin and more, along with some of my own classical arrangements of Christmas past.

We can add a bass, guitar, sax, flute, or drums. You can choose solo, duos, trios, or my band, **Joint Venture**.

I can help you customize your party with you and your friends and business associates in mind. Whatever your preferences, I can guarantee **your guests will be raving** about the wonderful time they had as they sleigh-ride back home!
