

Your Wedding Reception

The months of preparation, the rehearsal, and the heartfelt, unforgettable ceremony.
Now it's time to let your hair down and have some **fun!**

There are so many options for reception music. Consider the *mood* you want to create.

Do you want an elegant affair with classical music playing? Do you want a lively program that creates excitement? You can choose a background format or one to really get your guests involved. Some of your guests have traveled quite far, and some you haven't seen in awhile. Do you want an atmosphere where you can simply visit with each guest, or do you want to get everyone out on the dance floor?

Do you want to have a *first dance* as a married couple, and another special recognition dance for the Bride and her father?

I can provide a solo piano background program, or add different instruments. My band can either play a background jazz/contemporary mix, or we can take a more leading role and have your guests dancing the night away. Whichever format you choose, I will help you choose the *perfect mix* for you and your guests easily. Let my extensive song list on this website help start your planning process.

Call or email me so we can plan a party you and your guests *will always remember!*
