

## Your Wedding Rehearsal Dinner

All the details have been attended to. All the decisions have been made. Everything is in place. You've had the wedding rehearsal, and it went well. Now it's time to *take a breather* before the actual wedding day.

The Rehearsal Dinner is a way to *sit back and unwind*. Whether you choose a buffet or sit-down dinner, you'll want to consider what type of music you would like to have as your guests enjoy the meal. You can choose a contemporary program, jazz standards, classical, or a mixture. I can provide solo piano, or add a duo or trio. The music will be flowing through the background as you enjoy visiting with the wedding party.

Live music lends such a special touch to this very special event.

Let my song list be your guide as you choose your favorite songs to help you *relax*. Think of it as music therapy to get you ready for your big day.

Call or email me and *put yourself in my hands*.
